MKG: Pharmacology

Trusted by health professionals across the world to support confident decision-making at the point of care.

The new edition provides up-to-date guidance on prescribing, dispensing, and administering medicines to children, plus legal and professional guidelines.

Recommendations in the BNF for Children have been constructed on the basis of authoritative sources, emerging evidence, best practice guidelines and advice from a network of paediatric experts. The process is overseen by a paediatric formulary committee.

The new edition will be extensively updated.

Unique Benefits:

- Up-to-date information on prescribing, dispensing, and administering medicines for children
- Authoritative, independent guidance on best practice enabling health professionals to select safe and effective medicines for children
- Information health professionals trust for quality and reliability
